

ICBEF 2017

2017 International Conference on
Biometric Engineering and Forensics
November 12-14, Seoul, South Korea

2017 International Conference on Biometric Engineering and Forensics (ICBEF 2017) will be held in Seoul, South Korea during November 12-14, 2017. ICBEF 2017 is to bring together innovative academics and industrial experts in the field of Biometric Engineering and Forensics to a common forum. The primary goal of the conference is to promote research and developmental activities in Biometric Engineering and Forensics.

Shining Points & Publication

- ✧ **International Conference Proceedings Series by ACM**, which will be archived in the **ACM Digital Library**, and indexed by **Ei Compendex** and submitted to be reviewed by Scopus and Thomson Reuters Conference Proceedings Citation Index (ISI Web of Science). Or **International Journal of Bioscience, Biochemistry and Bioinformatics (IJBBB, ISSN: 2010-3638)**, and will be included in the Engineering & Technology Digital Library, and indexed by WorldCat, Google Scholar, Cross ref, ProQuest.
- ✧ Prof. David Zhang from Hong Kong Polytechnic University, Hong Kong, Prof. Kar-Ann Toh from Yonsei University, South Korea, Prof. Yasushi Yagi from Osaka University, Japan, and Assoc. Prof. Kuo-Yuan Hwa from National Taipei University of Technology, Taiwan have joined as Keynote Speakers.
- ✧ One Day Visit will be arranged on November 14, 2017.

Call for Papers

- Biometric analysis of crime scene traces
- Biometric and forensic analysis of crime scene traces
- Algorithms for face data analysis (2D and 3D)
- Face recognition
- Image and video forgery detection
- Iris-based personal authentication
- Machine learning techniques in image forensics

More topics can be found at <http://www.icbef.org/cfp.html>

Submission Methods

- Paper submission (publication and presentation):
- Abstract (presentation only):
